WINTER 2013
EDITION

Easy Mobility Services would like to give a warm welcome to our new and existing customers.

As we look back over 2013 and remember a lovely spring and a fabulous summer with some of the hottest days ever recorded we can hopefully keep these memories to stay warm in the months ahead. Two major events that we have been fortunate to witness and enjoy this summer was firstly, the spectacular battle from Andy Murray to win 2013 Wimbledon Championships. Not since 1936 since Fred Perry claimed that title have we had another Champion. Secondly a heart warming moment when Catherine and William walked down the hospital steps holding our future King George. Such a gorgeous baby! Now winter winds are blowing leaves away and the temperature has dropped significantly our thoughts are on keeping warm and comfortable. Here at Easy Mobility we can hopefully offer some inspiration with advice and products that will keep you mobile and active.

Comfort shoes for problem feet

Due to demand we now stock this quality collection of shoes and slippers, a carefully designed range of comfort footwear for problem feet. While shoes for swollen or sensitive feet need that extra bit of room, it is equally important that they should look neat.

With the Sandpiper range they have gone to great lengths to keep the appearance looking smart, even for the widest, most difficult feet. They have added many new styles and colours for this season, make sure you have a look at the new winter range. Come in and see for yourself. The slippers are proving popular for Christmas.
